**RE: Request for Calhoun Street Closure**

Dear Mr. Brantley:

Per our meeting September 19, 2005, the Division of Engineering Services has received your request for the closure of Calhoun Street for approximately 3 weeks, for the installation of utilities between the Courthouse and the Bank of America building. Calhoun Street is a major one-way arterial road downtown and Public Works can not allow Calhoun Street to be closed for any extended length of time without Board approval. We understand that several options have been considered for the installation of the utilities between the Bank of America building and the Courthouse without closing Calhoun Street. However, the fact that there are currently a large number of utilities under the roadway which create potential conflicts and safety hazards, it is our understanding that the safest way to install the necessary utilities is the open cutting of Calhoun requiring the extended road closure.

If you have any questions, please feel free to contact me at 488-8003.

Sincerely,

Tony Park, P.E.  
Director of Public Works
